## Activity instructions

<p><b>Sequence</b></p>	<ul style="list-style-type: none"> <li>Due to the nature of the equipment, all activities can be undertaken on different pumps, locations and different days. CPCS must be informed prior to any tests taking place and be given full details of any divided tests</li> </ul> <p>The test must be completed collectively within a given time. The specifications' section gives further information</p>
<p><b>Preparing for work</b></p>	<ol style="list-style-type: none"> <li>Complete all manufacturers' pre-start and running checks as detailed in the operator's manual which must be referred to by the candidate during the activity             <ul style="list-style-type: none"> <li>Additional information to be identified by the candidate referring to the operator's manual. Tester to decide what information will be identified</li> </ul> </li> <li>Ensure that the trailer is secure and segregate the working area</li> </ol>
<p><b>Setting up for work</b></p>	<ol style="list-style-type: none"> <li>Prepare for the relevant work following the given pipeline specification</li> <li>Lubricate the pipes and placing hoses with a suitable primer</li> <li>Direct the material-carrying vehicle into position</li> </ol>
